

Bronto Skylift F32TLK

MULTI-PURPOSE AERIAL PLATFORM

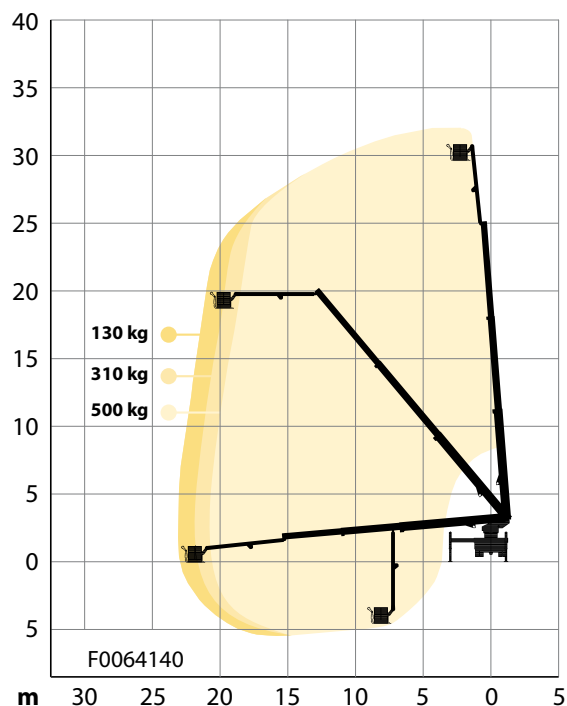

Stable rescue platform with integrated waterway

The Bronto F32TLK is a compact, fast and easily manoeuvrable aerial ladder platform for an array of rescue and firefighting missions. This versatile platform challenges conventional fire ladders as a significantly more efficient and versatile choice.

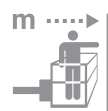

F32TLK key features

- Length only 9 meters, no overhang, enables access to congested roadways and narrow alleys
- Integrated non-corrosive waterway
- Stable telescopic rescue ladder (can be left out)
- Superior down reach of 5.4 meters
- Spacious rescue cage with 500 kg capacity
- Long outriggers; effective leveling capacity
- User friendly Bronto 5+ control system
- Modern service tools and a wide service network
