BRONTO SKYLIFT

Safety above all

Bronto Skylift F-WFT range

UNRIVALLED EXTINGUISHING CAPACITY

WFT range key features

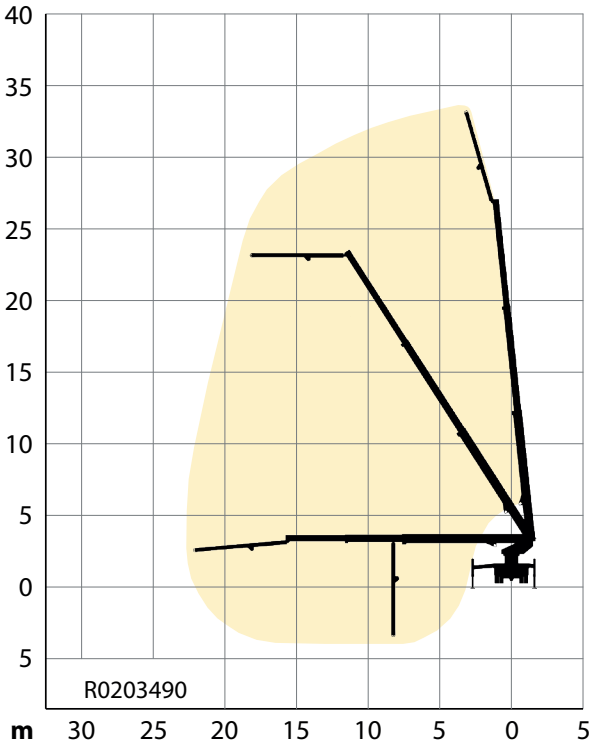

- Very short transport length
- Water capacity of 6,000 l/min
- Ideal for cooling tanks under fire hazard and fighting intensive fires
- Can be adapted for various specifications
- Optional remote control allows operation from a safe distance, without compromising performance
- User friendly control system
- Modern service tools and a wide service network

Saving lives and properties with efficient water capacity

Industrial fire brigades in oil refineries, chemical plants and other industrial environments work in dangerous conditions and they must be prepared for situations where high foam and water capacity is needed. The Bronto Skylift WFT range comprises of efficient water and foam towers for targets that are difficult to access and extinguish.

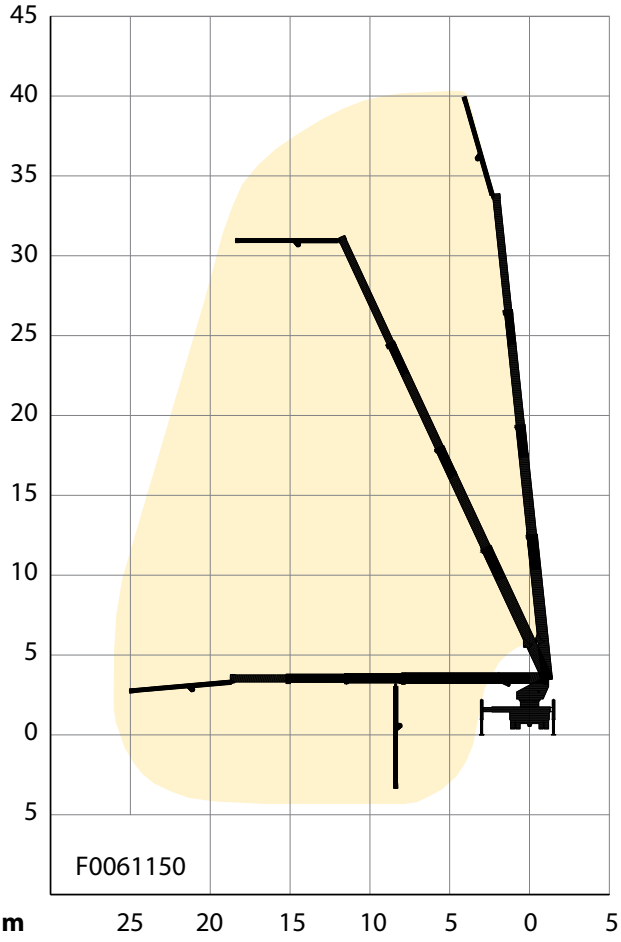

F33WFT

Customizable configuration

In addition to safety, our industrial fire solutions are strongly based on a multifunctional usability principle.

All of our concepts are designed to enable flexible modification and customization according to the tasks at hand. By manufacturing the products in-house, we make sure that they serve your specific needs to the very last detail. This also guarantees that the aerial platforms can adapt smoothly to your own procedures, systems and standards. The machines are designed to fit multiple standards and can be mounted on different chassis and equipped with fire pumps that meet your purposes. The optional features also include various foam mixing systems, radio remote controls and remote controlled cameras for extended surveillance capability.

Bronto+ control system takes care of you

Safety is about creating a safer working environment. An advanced Bronto+ control system increases the safety on your worksites by letting you focus on the job at hand.

- Easy and ergonomic
- Precise, stable movementsand extremely reliable outreach
- Automatic selection of the maximum allowed outreach in every direction based on the set up
- Bronto+ displays with touch screens and tailorable menus
- Integrated help texts, quick manuals and detailed failure codes help you in all situations

Various options

- Remote control for boom movements and water monitor
- Emergency back-up system
- Ultrasonic collision guard
- Various working lights and camera options
- Bronto Loadman to measure ground bearing

Total lifecycle support

For optimal performance and your safety, it pays off to take the best possible care of your Bronto platform.

An aerial platform is a long-term investment. Our services ensure your aerials are connected and kept in the best possible shape for their entire lifecycle. Taking advantage of these services will help you maximise the value of your investment by maximising uptime, ensuring optimal performance, maintaining resale value, and – above all – keeping your operators and personnel safe.

Lifetime support begins when your first Bronto is delivered, starting with detailed handover training for your future operators and service personnel. Throughout the lifecycle of your Bronto, you will have access to our digital services, training, technical support, remote service, extended warranties, spare parts, maintenance, repairs, refurbishments, upgrades and rebuilds.

BRONTO SKYLIFT

Safety above all

Bronto Skylift is a trusted global supplier of truck-mounted hydraulic platforms. We design, manufacture, sell and service appliances for rescue and firefighting, as well as for industrial access.

Our product range includes approximately 50 models with a range of 28 to 104 metres of working height. The advanced modularity also allows for numerous client-specific modifications. During the past 50 years, we have delivered over 8,000 platform units to fire brigades and industrial customers throughout all the continents in more than 120 countries.

Our headquarters and production plants are situated in Finland. We also have subsidiaries in Germany, Sweden, Switzerland and the US. The company is part of the Japan-based Morita Holdings Corporation.
